

Agricultural Marketing Service, USDA

§ 984.67

shelled walnuts within the area of production by one handler to another. The Board, with the approval of the Secretary, may establish methods and procedures, including necessary reports, for such transfers.

[73 FR 11339, Mar. 3, 2008]

§ 984.64 Disposition of substandard walnuts.

Substandard walnuts may be disposed of only for manufacture into oil, livestock feed, or such other uses as the Board determines to be non-competitive with existing domestic and export markets for merchantable walnuts and with proper safeguards to prevent such walnuts from thereafter entering channels of trade in such markets. Wherever free and reserve percentages are in effect, the kernelweight of any walnuts meeting the minimum kernel content requirements effective pursuant to § 984.50(e), may be pooled and the disposition credited to the handler's reserve obligation pursuant to § 984.56. Each handler shall submit, in such form and at such intervals as the Board may determine, reports of (a) his production and holdings of substandard walnuts and (b) the disposition of all substandard walnuts to any other person, showing the quantity, lot, date, name and address of the person to whom delivered, the approved use and such other information pertaining thereto as the Board may specify.

[41 FR 31544, July 29, 1976]

§ 984.65 Compliance.

Except as provided in this subpart, no person shall handle walnuts, inshell or shelled, during any marketing year in which this subpart and any regulations issued by the Secretary hereunder are in effect, unless such person has previously met the obligations imposed by each such regulation and the provisions of this subpart.

§ 984.66 Assistance of the Board in meeting reserve obligation.

The Board may assist any handler in accounting for his reserve obligation and may aid any handler in acquiring walnuts to meet any deficiency in his

reserve obligation, or in accounting for, or disposing of reserve walnuts.

[41 FR 31544, July 29, 1976]

§ 984.67 Exemptions.

(a) Exemption from volume regulation. Reserve percentages shall not apply to lots of merchantable inshell walnuts which are of jumbo size or larger as defined in the then effective United States Standards for Walnuts in the Shell, or to such quantities as the Board may, with the approval of the Secretary, prescribe.

(b) *Exemptions from assessments, quality, and volume regulations*—(1) *Sales by growers direct to consumers.* Any walnut grower may handle walnuts of his own production free of the regulatory and assessment provisions of this part if he sells such walnuts in the area of production directly to consumers under the following types of exemptions.

(i) At roadside stands and farmers' markets;

(ii) In quantities not exceeding an aggregate of 500 pounds of inshell walnuts or 200 pounds of shelled walnuts during any marketing year (at locations other than those specified in (b)(i) of this section); and

(iii) If shipped by parcel post or express in quantities not exceeding 10 pounds of inshell walnuts or 4 pounds of shelled walnuts to any one consumer in any one calendar day.

(2) *Green walnuts.* Walnuts which are green and which are so immature that they cannot be used for drying and sale as dried walnuts may be handled without regard to the provisions of this part.

(3) *Noncompetitive outlets.* Any person may handle walnuts, free of the provisions of this part, for use by charitable institutions, relief agencies, governmental agencies for school lunch programs, and diversion to animal feed or oil manufacture pursuant to an authorized governmental diversion program.

(c) *Rules and modifications.* The Board may establish, with the approval of the Secretary, such rules, regulations and safeguards and such modifications as
